

Cheetah Exam Prep[®] With the PMP[®] Classroom Course Syllabus

2021

Thank you for downloading the Cheetah Exam Prep with the PMP[®] Exam Course Syllabus. Inside, you will find a complete outline of what is covered in this highly effective, 20 year track record, 4-day program.

The purpose of this course is to enable you to achieve any goal you set out to achieve at least five times faster as verified by your ability to pass PMI[®]'s (Project Management Institute) Project Management Professional (PMP[®]) Certification Exam after only four days of prep. Cheetah Exam Prep with the PMP[®] was developed by leaders in Accelerated Learning, Memory, Instant Recall, and PMP[®]s. Cheetah Learning's very successful 4-day classroom course has been taught for 20+ years with the longest standing validation pass rate in the industry of 98%. We guide you every step of the way from submitting your PMI[®] application to successfully passing the PMP[®] Exam on the day following your four day course.

If you have four days to dedicate to learning how to accelerate your learning and validating this by passing the PMP[®] Exam, this carefully structured, instructor guided, course is right for you. You'll have access to individualized instructor attention reviewing your activities and monitoring your progress. Cheetah Learning uses accelerated adult learning techniques to effectively condense a goal that takes most people six months to achieve into a unique four-day learning experience. Students leave the course having mastered accelerated learning techniques fully prepared to pass the PMP[®] Exam, the next day. **For those who follow the program, passing is guaranteed.**

Meet One of Your Instructors

Michelle LaBrosse, CCPM, PMP, PMI-ACP, RYT, created this Accelerated Learning approach that uses passing the PMP exam as a validation of accelerated learning mastery in 2001. **Michelle teaches the Cheetah Exam Prep® with the PMP® Exam in both the classroom and virtual classroom formats.**

Michelle has a BS Aerospace Engineering, an MS in Mechanical Engineering and graduated in Harvard Business School Owner President Managed (OPM-35) program. She obtained his PMP Certification in 20001 and her PMI-ACP Certification in 2012. **Her PMP number is 37528.**

What Cheetah Students Say

"I passed....no other program worked for me...thank you Cheetah Learning :)"

"Cheetah taught me how to study and I will take that knowledge with me and apply to other courses that I take in future."

"The PMP Exam Prep course works! Michelle has developed a very effective method of preparing for the PMP Exam. You must commit to the methodology and have an open mind. I found myself remembering things I never thought I would. I can't thank Michelle and the Cheetah staff enough for helping me obtain this credential and cannot recommend them enough!"

"Great program and wonderful instructors! Teaches concepts you continue to apply after the class and definitely contributed to my success in passing the PMP exam. Highly recommend this program."

"An exceptionally well designed, well executed, and, above all effective course. Just amazing."

"Thorough, interesting, unique and prepared me well for the exam. Will take other classes from Cheetah when possible. I passed!"

Relax

We guarantee that you will master accelerated learning and pass the PMP® Exam after fully participating in Cheetah Learning's accelerated exam prep with the PMP® course.

Just as a mechanic would not be able to guarantee a car will run if some pieces of the engine were taken out, neither can we guarantee you will pass if you do not fully participate in the course.

While most people take the actual PMP® exam the day after class ends, you must take the exam within seven days of completing the course.

If you do not pass the PMP® Exam, your instructor will create a personalized program to help you shore up your weak areas and will guide you through the process of rescheduling the exam. You must retake the exam within 30 days of the first exam, and if you need to test for a third time, you must take that exam within 30 days of the previous exam.

In the unlikely event you do not pass the PMP® Exam after the third attempt (all attempts must be made after completing the Cheetah Exam Prep® for the PMP® course), and you have abided by the guarantee guidelines, we will refund the entire course fee to the paid who paid for the course. If you prefer, in lieu of a full refund, we can instead provide you \$500 toward the purchase of an alternative Cheetah course, after an unsuccessful second attempt and with the recommendation of your PMP® Instructor.

Don't worry, you've got this!

The Process

The Cheetah Exam Prep® with the PMP® Program is designed to have you master accelerated learning and pass the PMP exam. Just like every great coach, Cheetah's Accelerated Learning Coaches guide you every step of the way to ensure your success. PMI® has a prerequisite that candidates taking the PMP® Exam have 35 hours of Project Management training and meet guidelines for Project Management experience prior to filing their eligibility application. The Cheetah Exam Prep® with the PMP® includes, at no extra cost, the 35 hours of training that many people use to meet PMI®'s PM Education requirement. See PMI®'s requirements at [PMI.org](https://www.pmi.org).

This program enables you to master accelerated learning techniques so you absorb

the entire Project Management Professional curriculum in just four days of immersion training. This includes all of the Project Management material needed to pass the PMP® Exam: over 400 key definitions, 49 Project Management processes, Agile Project management, multiple Tools & Techniques, and deliverables... everything.

The accelerated learning techniques ensure a practical, hands-on working knowledge of the materials and all the information is taught to ensure long-term retention. To achieve the results, we use highly innovative accelerated learning techniques including - neuro-psychology, psychoacoustic technology, visual memorization techniques, color recognition, physical conditioning and multiple intelligences.

We structure the four day event to include plenty of break time that includes stress reduction methods which also serve to keep you focused, alert, energetic and positive. Many people report on Friday that they have never felt better. We run the course nine hours each day, Monday through Thursday, with some homework assignments each night. We also arrange nutritious and healthy meals throughout the day that also serve to improve focus and concentration. On Friday morning, candidates take their scheduled PMP® Exam at a local testing center and later that afternoon become PMP®s.

This is a very effective way to accelerate your ability to learn and is validated by passing the extremely difficult PMP® certification exam. The approaches you follow have worked for over 80,000 people worldwide. We follow this rather unconventional formula because it works, well for people to learn how to achieve their goals at least 5x faster.

**Includes the
Cheetah-Pedia
for Rapid
Synthesis of key
concepts.**

Tuition

Tuition includes all the Accelerated Learning Course material and access to our world class accelerated learning coaches before, during and after the program to ensure your success with accelerated learning. We recommend books you may want to acquire in the pre-course - they are optional.

While this is not a "PMP Exam Prep" program per se and while many take this to master the skills of accelerated learning, many also do use this program to pass the PMP exam. When you factor in the cost of study materials, class fees, and study hours, other exam preparation options are considerably more costly, time consuming, and risky. You are left on your own with content oriented PMP Prep programs and boot camps to take the PMP exam after you complete their programs. With Cheetah Learning, passing the PMP Exam is a significant validation to prove you have mastered accelerated learning techniques. And coincidentally, this is also the most time- and cost-efficient path towards PMP® Certification.

Note: PMI® and Cheetah Learning are separate organizations; therefore, the cost of this program does not include the cost of PMI®'s PMP® Certification Exam.

If you have a group of people you want to all be on the same page with how to accelerate their learning (and become PMP certified in the process), contact us directly to get a free quote: email info@cheetahlearning.com or call 1-844-800-4767.

We offer a **Virtual Classroom** and **Online Self-Paced** program to suit your needs, budget and availability.

What You'll Study

To master accelerated learning skills in sufficient depth to pass the PMP exam after only four days of prep, we cover many complex topics required to pass the PMP exam. In addition to standard Project Management concepts and standards, you practice the following topics extensively: Earned Value Analysis, Estimating (Schedule, Cost, Resources), Network Diagramming, General Accounting Standards, Project Scheduling, Quality Control Tools, General Management Practices, Motivation Theory, Change Control Systems, Conflict Management, Work Authorization Systems, Cultural Factors, Work Breakdown Structure, PMP Professional Responsibility, Strategic Business Planning, Contract Administration, Risk Management, Task Interdependencies, Project Management Acronyms and Definitions, Procurement Management, Communications Management, Stakeholder Management, Professional Responsibility, Project Management Lexicon.

During the program, you will complete over 600 sample PMP® Exam Questions that closely simulate the actual exam experience.
