Relax

We guarantee that you will pass the PMP® Exam after fully participating in Cheetah Learning’s accelerated PMP® Exam Prep course.

Just as a mechanic would not be able to guarantee a car will run if some pieces of the engine were taken out, neither can we guarantee you will pass if you do not fully participate in the course.

While most people take the exam the day after class ends, you must take the exam within seven days of completing the course.

If you do not pass the PMP® Exam, your instructor will create a personalized program to help you shore up your weak areas and will guide you through the process of rescheduling the exam. You must retake the exam within 30 days of the first exam, and if you need to test for a third time, you must take that exam within 30 days of the previous exam.

In the unlikely event you do not pass the PMP® Exam after the third attempt (all attempts must be made after completing the Cheetah Exam Prep® for the PMP® course), and you have abided by the guarantee guidelines, we will refund the entire course fee to the paid who paid for the course. If you prefer, in lieu of a full refund, we can instead provide you $500 toward the purchase of an alternative Cheetah course, after an unsuccessful second attempt and with the recommendation of your PMP® Instructor.

Don’t worry, you’ve got this!

The Process

The Cheetah Exam Prep® for the PMP® Program is designed to take you across the finish line and pass the PMP exam. Just like every great coach, Cheetah’s PMP Coaches guide you every step of the way to ensure your success. PMI® has a prerequisite that candidates taking the PMP® Exam have 35 hours of Project Management training and meet guidelines for Project Management experience prior to filing their eligibility application. The Cheetah Exam Prep® for the PMP® includes, at no extra cost, the 35 hours of training that many people use to meet PMI®’s PM Education requirement. See PMI®’s requirements at PML.org.

We incorporate extensively proven accelerated learning and memorization techniques that allow candidates to master the entire Project Management Professional curriculum in just four days of immersion training. This includes all of the Project Management material needed to pass the PMP® Exam: over 400 key definitions, 49 Project Management processes, multiple sets of Inputs, Tools & Techniques, and Outputs… everything.

The learning techniques ensure a practical, hands-on working knowledge of the materials and all the information is taught to ensure long-term retention. To achieve the results, we use highly innovative accelerated learning techniques including - neuro-psychology, psychoacoustic technology, visual memorization techniques, color recognition, physical conditioning and multiple intelligences.

We structure the four day event to include plenty of break time that includes stress reduction methods which also serve to keep you focused, alert, energetic and positive. Many people report on Friday that they have never felt better. We run the course nine hours each day, Monday through Thursday, with some homework assignments each night. We also arrange nutritious and healthy meals throughout the day that also serve to improve focus and concentration. On Friday morning, candidates take their scheduled PMP® Exam at a local testing center and later that afternoon become PMP®s.

This is a very effective way to prepare for the extremely difficult PMP® certification exam. The approaches you follow have worked for over 80,000 people worldwide. We follow this rather unconventional formula because it works, fast.
Tuition

Tuition includes all the PMP® Exam Prep Course materials, equipment, snacks, and lunch.

You will need to obtain your own hard copy of the PMI®'s PMBOK® Guide – Sixth Edition.

When you factor in the cost of study materials, class fees, and study hours, other exam preparation options are considerably more costly, time consuming, and risky. You are left on your own with PMP Prep programs and boot camps to take the PMP exam after you complete their programs. Passing the PMP Exam is a crucial part of Cheetah's PMP Test Prep program. This is the most time- and cost-efficient path towards PMP® Certification.

Note: PMI® and Cheetah Learning are separate organizations; therefore, the cost of this program does not include the cost of PMI®'s PMP® Certification Exam.

If you have a group of Project Managers who need to pass the PMP Exam, contact us directly to get a free quote: email info@cheetahlearning.com or call 1-855-286-9900.

Alternatively, we offer a Virtual PMP Exam Prep and Online PMP Exam Prep to suit your needs, budget and availability.
What You’ll Study

During the program, you will complete over 550 sample PMP® Exam Questions that closely simulate the actual exam experience.
